Brian

We have not signed any contracts yet. This was due to the fact that Turn filed the application for rehearing and the PUC just rejected Turn's application at the February 27, 2014 meeting. Several of the municipalities in the Central Valley are inquiring into the tariff. Our current estimate of potential load is 25 to 50 MW. Once we have final approval from the PUC we expect the demand to increase.

Thank you so much. If you are able to get to it soon, it is definitely a high priority on this end. I really appreciate it.

Hi Brian,

John will track this down and give you a call.

Thanks,
Meredith

Hi Meredith:

Could you put me in touch with someone at your company who I could chat with about the economic development rate tariff offerings? I am trying to determine how subscribed the program is up to the 200 MW cap.

Thanks so much,

Brian Stevens
