Subject: Tier 2 Advice Letter on realigning CARE, PPP and SmartRate Credit in PG&E's Distribution Rates

Dear Don,

As you might recall in our discussion in February, PG&E intends to file a Tier 2 advice letter to realign its CARE, PPP and SmartRate Credit allocations in the distribution rate, for implementation effective May 1, 2014. During the call, PG&E mentioned that it will share with you some draft language that might be included in this advice letter, as well as an updated table summarizing the rate and bill impact to customers. PG&E plans to send these to you by Friday, March 21.

PG&E's Rate Dept will also be available to answer any questions Energy Division has about this proposal. In case, a teleconference is preferred, the subject matter experts from PG&E's Rates Dept is available on either March 25 (Tuesday) or March 26 (Thursday). Please let us know whether these dates also work for you. If so, we will reserve the meeting dates/time in the outlook invite.

Thanks and Regards,
