Re: Pacific Gas and Electric Company
Decision 09-10-035, Ordering Paragraph 23 – Annual Reports on Gill
Ranch Storage Project – Confidential Material

Dear Ms. Paull:

Attached are PG&E's 2013 annual reports, detailing its operations and storage capacity at the Gill Ranch Storage Project. These reports contain competitively sensitive, confidential information and are being submitted under seal, in accordance with General Order 66-C and Public Utilities Code § 583, and Ordering Paragraph 25 of Decision 09-10-035 (the Decision).

The first report includes: 1) the capacity of the Gill Ranch Storage Project storage facilities, i.e., total inventory, injection and withdrawal rights for PG&E's percentage of undivided ownership interest in the project; 2) a summary showing average monthly storage inventory, injections and withdrawals for PG&E's percentage of undivided ownership interest in the project, based on the Energy Information Reports that are submitted to the US Department of Energy; and 3) the daily operating records, for PG&E's percentage of undivided interest in the project, in conformance with the Energy Information Administration Reports weekly reporting format. The second report provides: 1) PG&E's aggregate firm storage capacity under contract; and 2) aggregate interruptible storage capacity sold, using monthly and annual data.

These annual reports are provided in compliance with Decision 09-10-035, Ordering Paragraph (OP) 23. Decision 09-10-035 approved two consolidated applications which sought to establish a competitive gas storage facility and to provide related gas storage services.¹

¹ Gill Ranch Storage, LLC Application (A) 08-07-032 and PG&E A. 08-07-033.

**Pacific Gas and
Electric Company***

If you have any questions about this report, please contact me at (925) 328-5890.

Sincerely,

Larry D. Kennedy, Jr.
Director of Reservoir Engineering
