Authority, AmongOther Things, to Increase Rates and (Filed November15, 2012)
Charges for Electric and Gas Service Effective or January 1, 2014. (U 39 M)

Investigation 13-03-007

And Related Matter.

NOTICEOF EXPARTE COMMUNICATION

Pursuant to Rule 8.4(a) of the Commission's Rules of Practice and Procedure, Pacific Gas and Electric Company(PG&E) hereby gives notice of the following ex parte communication. The communication occurred on Wednesday, March 5, 2014, at approximately 3:30 p.m., by telephone to the offices of California Public Utilities Commission. The communication lasted for approximately 10 minutes, and no written material was provided. [Rule 8.4(a)]

John Hughes, Director, Regulatory Relations, PG&E,initiated the communication with Administrative Law Judge ThomasPulsifer. [Rule 8.4(b)]

Mr. Hughescalled ALJ Pulsifer to inform him of two errors in the PG&E2014 GRC. The net effect of these two errors results in a reduction in the forecasted GRO evenue requirement of \$4.1 million.

Mr. Hughessaid that the first correction reduces the forecasted revenue requirement by \$7 million. This is a result of a misalignment between the way that the liability and expense associated with two of PG&E'sbenefit plans were forecasted and the way the plans are actually administered. The issue involves medical claims for disabled employees between the ages of 55 and 65. The GRGorecast assumesthat these employees are deemedretired and therefore

their medical costs are forecasted as part of the Post-Retirement other than Pension (PBOP)

However, the applicable plan for all disabled employees, including those age 55 to plan trust.

65, should be the Long Term Disability (LTD) plan trust, not the PBORrust.

Correcting this misalignment results in a \$7 million reduction in the forecasted 2014

GRO evenue requirement. The reduction is due to differences in accounting and funding rules

for the PBOPand LTD benefit plan trusts.

The second correction relates to a Partial Settlement Agreement filed on September 6,

2014, with The Utility Reform Network (TURN), the Marin Energy Authority (MEA) and PG&E.

The settlement agreed to reallocate \$31.7 million from the GRO evenue requirement for

administrative and general (A&G) costs related to customer-related programs such as demand-

side management. As part of the \$31.7 million, PG&Emistakenly included approximately \$2.88

million in payroll taxes that should not be reallocated to customer programs.

Mr. Hughessaid that PG& Enas spoken with the parties namedabove about these two

He added that PG&has spoken with the Office of Ratepayer Advocates as well. issues. [Rule

8.4(c)
