Subject: RE: PG&E introduction re: Care Lifeline coordination

Nathan,

Great to meet you and thanks to Commissioner Sandoval for connecting us. I'm asking [Redacted], [Redacted], who leads our low income programs, to connect with you on scheduling a discussion. My calendar is pretty jammed, but if I can make it I will. However, I don't want to hold up the meeting.

Steve

Sid, Steven, and [Redacted]

Let me know if there is a time that we can plan for a call on Friday. I am traveling all week this week, but I am very interested to work with PG&E on their CARE program and determine a way in which we can work together regarding the CA ETC Lifeline Wireless program.

If Friday does not work, please let me know if there is a time that we can connect the week following. We have offices in LA and could meet in person as well, if the timing works for you all.

Best Regards.

Subject: PG&E introduction re: Care Lifeline coordination

Hi, I'd like to e-introduce Redacted of Telscape & Redacted Redacted a Telscape Board Member, to Sid Dietz, Steve Malnight, and Redacted of PG&E. Redacted is in charge of PG&E's CARE program which is the energy parallel to Lifeline and provides discounted electric & gas rates to income eligible Californians. CARE eligibility requires household income of 200% of federal poverty level or below, whereas Lifeline requires 150% of federal poverty level or below. Redacted is also in charge of the PG&E Energy Assistance Program which provides energy efficiency measures to low-income households.

I've talked with each of you about the potential for LifeLine/CARE/ESAP coordination. For example, developing a Care enrollment & re-enrollment App and PG&E bill paying App & pre-loading it on Lifeline phones would be great. Telscape enables debit card loading for bill payment so this would be helpful for low-income households who often pay in cash. Telscape will soon be offering Lifeline in San Jose & will be expanding in the Central Valley & the Bay Area so there will be overlap in PG&E territory. Redacted is based in Los Angeles. I encourage you to coordinate. Please let me know how the CPUC can support your CARE/LifeLine/Esap coordination efforts. Thanks, Commissioner Sandoval
