Subject: GHG Procurement for Natural Gas Utilities

Jennifer,

Thanks for your voice message. I wanted to discuss procedural options for addressing PG&E's GHG procurement advice filing (4331-E) and GHG cost recovery application (A.13-09-015) in light of the new GHG OIR issued last Thursday (R.14-03-003). I'm attaching the public version of the advice letter requesting amendments to our existing GHG procurement plan for your reference.

I will reach out to your assistant to schedule a time for us to chat by phone.

Thanks,

Erik
