Sunil

Here's a copy of the PowerPoint presentation Bennie Barnes used in leading the discussion with Ken Bruno and his team last week in San Ramon.

It provides an overview of our approach, including the two previous tree root impact studies, and links them to the ROW standard and work we are doing (or attempting to do) now.

You have the previous two studies, so this completes your set of information that is currently available.

Thanks again for coming out last week.

Laura
