Subject: Roll out of the TOU rates for small ag customers

Brian and Sidney,

After the meetings we had with you and internal conversations, we believe the best and maybe only course of direction is for PG&E to delay implementing default TOU rates for the agricultural customers that were slated to be rolled into the TOU rates this past March to March of 2015. In the meantime we would like to see continued and/or expanded outreach to these customers about their options for opt-in TOU rates so that customer that can benefit from the tariff have the tools they need to make the best decisions.

Please let me know what formal direction you need from us to make this happen.
