Subject: Ee symposium

Sid, appreciate your help, but I am already working with your staff including jan Berman and Felicia Lokey. If there is anyone else you think I should speak with, let me know. We are on the fast track to put this together, so I'm already networking my way through your EE staff.

Also, to clarify, I am not looking for you guys to select speakers, I am looking for whiz bang ideas for things to talk about (from technology to program design and others) and really engaging speakers to deliver the information.

I'm at your EE meeting today at the delancy foundation, but am in the office all day tomorrow if you want to talk.

Thanks, Kristin
