Purpose

At this workshop, California Public Utilities Commission (CPUC) staff will present and facilitate inter-agency discussion, party presentations, and informal comment on issues scoped under “Track One” in the Preliminary Scoping Memo for Proceeding R.14-02-001.

Staff expects presentations to cover policy issues related to the potential design of a Multi-Year Resource Adequacy program, including but not limited to:

- Potential capacity procurement requirements and types of capacity procurement,
- Inter-agency panel discussion on mechanics of multi-year forward RA,
- Mitigation of over-procurement and under-procurement,
- Etc.

The workshop will not be transcribed. A draft agenda will be sent to the service list prior to the workshop. If you are a party interested in making a short presentation, or have any questions, please contact Meredith Younghein at (415) 703- 5953 or Meredith.Younghein@cpuc.ca.gov. We will do our best to ensure that the web/tele-conferencing works smoothly for this workshop.

FYI: The transcript from the 1st JRP Workshop will be posted to the docket card for the proceeding, and should be posted 7 days from the workshop. Presentations from the 1st JRP Workshop will be sent to the service list by the end of this week.

Meredith Leigh Younghein

Senior Regulatory Analyst

Energy Division, California Public Utilities Commission
