Subject: FW: Update about PG&E Pipeline Pathways Program

Terrie

I will provide you with additional information about recent outreach in the East Bay tomorrow, but I wanted you to be aware of this communication from Mayor Lawson in Walnut Creek made after a PG&E team met with the City Manager Tuesday. I will provide you with a copy of the agreement signed by PG&E and the City as soon as I get it.

Thanks

Laura

Subject: Update about PG&E Pipeline Pathways Program

Dear Supporters,

I am pleased to report that our work with PG&E to develop alternative solutions to its Pipeline Pathways program has taken another small step forward. This afternoon the City of Walnut Creek reached an interim agreement with PG&E under which PG&E has agreed to refrain from (and ensure its agents and contractors refrain from) any non-emergency tree removal activities associated with its gas transmission lines within the City. In addition, PG&E has agreed to suspend proactive communications with property owners relating to non-emergency Pipeline Pathways tree removals. The term of the agreement is six months, and the agreement requires PG&E and the City of Walnut Creek to work together in good faith toward a definitive agreement regarding PG&E's vegetation management activities

within the City.

I am pleased to be able to share this update with you, and, as always, please feel free to contact me anytime at kristina.d.lawson@gmail.com.

Best Regards,

Kristina Lawson
Mayor, City of Walnut Creek
