Subject: Meeting request to discuss pressure restoration filing

Ken

I just left you a VM about a meeting we'd like to have with you to talk about transmission line pressure restoration restorations we need for lines 1816-01, 1024-01, and 148 in advance of the 2014 winter season. We are beginning to compile the filing papers that would support this request, and would like to talk with you and whomever you designate in advance of the filing.

Redacted

Redacted will be the lead contact for this meeting from Gas Ops, and he'll pull in the appropriate additional PG&E folks from the Gas System Operations team.

If possible, we'd like to talk with you next week. I think it could be a conference call, but of course we always like to have face to face visits with you when possible, and the team is in San Ramon, so perhaps that would work out too.

Thanks Ken.

Laura
