

Pacific Gas and Electric Company P.O. Box 997320 Sacramento, CA 95899-7320

## We support your power to choose

As part of our mutual commitment to support your energy choice, Sonoma Clean Power (SCP) and Pacific Gas and Electric Company (PG&E) have partnered to provide you with a comparison of typical residential electric rates, average monthly charges and generation portfolio contents.

If this comparison does not address your specific rate, please visit us online at sonomacleanpower.org or pge.com/cca.

## Understanding your energy choice

2014 Residential Rate Comparison, E-1 and RES-1*	PPSE	Sonoma Clean Power	
		CleanStart	EverGreen
Generation Rate (\$/kWh)	\$XX	\$XX	\$XX
PG&E Delivery Rate (\$/kWh)	\$XX	\$XX	\$XX
PG&E PCIA/FF (\$/kWh)	\$XX	\$XX	\$XX
Total Electricity Cost (\$/kWh)	\$XX	\$XX	\$XX
Average Monthly Bill (\$)	\$XX	\$XX	\$XX

\*This compares electricity costs for a typical residential customer in the SCP/PG&E service area (Sonoma County) with an average monthly usage of 508 kilowatt-hours (kWh). This is based on the recent 12-month billing history for all customers on E-1/RES-1 rate schedules for PG&E's and SCP's published rates as of May 1, 2014.

Generation Rate is the cost of creating electricity to power your home. The generation rate varies based on your energy provider.

PG&E Delivery Rate is a charge assessed by PG&E to deliver electricity to your home. The PG&E delivery rate depends on your electricity usage, but is charged equally to both SCP and PG&E customers.

PG&E PCIA/FF represents the Power Charge Indifference Adjustment (PCIA) and the Franchise Fee surcharge (FF). The PCIA is a charge to cover PG&E's generation costs acquired prior to a customer's switch to a third-party electric generation provider. PG&E acts as a collection agent for the Franchise Fee surcharge, which is levied by cities and counties for all customers.

If this comparison does not address your specific rate, please visit us online at sonomacleanpower.org or pge.com/cca.
