\*This compares electricity costs for a typical small commercial customer in the SCP/PG&E service area (Sonoma County) with an average monthly usage of 1,182 kilowatt-hours (kWh). This is based on the recent 12-month billing history for all customers on A-1 TOU/COM-1 TOU rate schedules for PG&E's and SCP's published rates as of May 1, 2014.

Generation Rate is the cost of creating electricity to power your business. The generation rate varies based on your energy provider.

PG&E PCIA/FF represents the Power Charge Indifference Adjustment (PCIA) and the Franchise Fee surcharge (FF). The PCIA is a charge to cover PG&E's generation costs acquired prior to a customer's switch to a third-party electric generation provider. PG&E acts as a collection agent for the Franchise Fee surcharge, which is levied by cities and counties for all customers.
