Subject: FW: DRAFT Response to BV Report rev 2

Liza

Per our discussion this morning.

Thanks

Laura

Subject: DRAFT Response to BV Report rev 2

Terence,

As discussed, I have attached for your review our DRAFT response to the second revision of the BV report. As you can see, PG&E still has concerns with the methods in which this report was created/authored, and find several (if not all) of the findings to be false. Our findings have been collaborated by NDT Technical Services by way of a complete review of our DRAFT response, and by LLNL through their summary findings of weld reviews.

Please review and we can discuss at your next opportunity.

Thank you,

Brian M. Daubin
