I was actually just curious about the details not whether or not you were required to report.

Hi Ken,

For gas events that don't meet the DOT criteria (injury, fatality, damages, etc.), but for events with a release of gas from our facilities where major bay area and major Sacramento television media are on scene we report.

Thank you, Redacted

Just talked to gas control, there was a leak on a service riser just below the valve yesterday evening on Mesa Dr in Carmel. They don't show any events for today.
