Subject: Station Power Back-bill Estimates

Confidential

Subject to PU Code Section 583

Marcelo,

The attached table includes confidential station power back-bill estimates that Commissioner Florio requested in our meeting last week. The first row shows back-bills assuming we go back to April 2010, the DC Circuit Court order date, and the second row shows back-bills going back to November, 2011, when PG&E filed Advice Letter 3951-E to comply with FERC's Remand Order. As you can see, there would be a significant increase in the estimated back-bill for Dynegy from the alternate dates Redacted
Redacted

Please let me know if you have any questions or need further information.

Best regards,

Erik
