Subject: Fwd: Agenda for June 20 Exergonix Tour

Brian, I'd like to invite you and any other PG&E representatives who will be attending the National Energy Utility Affordability Conference (NEUAC) conference in Kansas City to join me at this meeting and tour re: Exergonix battery storage technology. Exergonix is based in Kansas City and we'll meet with their CEO Don Nissanka and tour one of his battery installations @ Kansas City Power & Light. Don is working with Sandra Goeken and has developed a magazine-sized battery that they are deploying in an SDG&E streetlight pilot, and plan to incorporate into flat panel LED lighting for hospitals. Exergonix makes a variety of batteries including Lithium Polymer batteries, Lithium ion batteries, and has developed new storage technology that is the centerpiece of their CEC EPIC grant application. I'm speaking on a panel on Net Energy Metering at NEUAC at 9:00-10:30 am on Friday morning. Please let me know if you or any other PGE representatives would like to join me. I'll wait for your reply before inviting SCE or SDGE representatives who will be attending NEUAC.

Thanks, Commissioner Sandoval

Subject: Agenda for June 20 Exergonix Tour

Good Afternoon Commissioner Sandoval,

We look forward to meeting you on Friday, June 20th. We will have the meeting about a block from your hotel at our Plaza admin/legal office to be able to maximize time. I have attached a small flyer that you can provide to anyone else you want to invite that may have interest in touring the 1MWh installation facility.

The agenda is as follows:

1:00PM Meet at **919 W. 47th Street**, Kansas City, Missouri

This building is one block walk from the Sheraton Hotel on the Plaza

As you walk out the hotel to 47th street, go right one block uphill. Building is on left (Barnes Law)

1:15PM Presentation on Exergonix Technology

- Exergonix capabilities
- Unique design feature
- Applications for utility and EV/PEV recharge facilities
- Micro-grid and Smart-grid installations
- The KCP&L 1MWh design and installation success

2:30PM Tour of a 1MWh installation and discuss NREL/MRI Global involvement

The installation is located at the Kansas City Power & Light substation on:

47th Street and Troost Avenue – east of the Plaza

3:30PM Meet with Commissioner Sandoval on emerging technology for California

- Generation 2 Distributed Energy Storage System
- Emerging micro generation technology overview

4:00PM Head to Airport

Thank you again for making time to meet with us. Please feel free to invite anyone you feel could benefit in touring an active Smart-grid installation with Energy Storage Systems.

See you soon,

Don

Don I. Nissanka

President/CEO
