Subject: RE: PG&E's CTA registration process and technical requirements

Hi Elaine,

Thanks for following up. I would certainly be interested in an overview of the CTA registration process with PG&E. It would also be useful if there was someone present who could answer questions about PG&E's response to Judge Halligan's data request in R.14-03-002.

Wednesday morning would work better for me than tomorrow afternoon. Does that still work for PG&E?

Thanks,

Kris

Kris,

This is a follow up to my phone call to you to schedule a time when we could meet to walk through PG&E's CTA registration process and CTA technical requirements. This will give you an opportunity to ask informal questions to the individuals who manages the business process with our CTAs.

The attached checklist describes those items we cover with a new CTA who is going to provide CTA service within PG&E's service territory. We can cover these items and add other topics that you are interested in.

We are available next Monday or Tuesday, from 1 to 3 pm, or Wednesday morning. Please let us know if you would still like to meet and what times would be best for you.

Best regards,
