

Integrated Safety Council Structure

Chairman's Safety Council (CSC)

- Guide safety strategy
- Approve enterprise safety initiatives
- Set direction and remove barriers to success
- Promote safety culture
- Assure continuous learning from safety incidents

Line of Business Safety Councils

- Execute and manage LOB Safety Improvement Plan
- Assure corporate safety standards implementation
- Execute CSC directives
- Respond to emerging safety issues / trends

Enterprise Safety Working Team

- Create business cases for enterprise safety initiatives
- Provide "horizontal integration" across LOB Safety Councils
