Subject: RE: PowerPoints will not be completed by EOD today

Thank you for clarifying this. We were puzzled by the position in the email below. I'm on board a flight on the tarmac so I can't call in. Thanks to Amy for taking the call. I also thought it odd to ask for the power points on the same day as the panel planning call. The planning call helps the panelists frame their presentations and we plan to use the discussion to help us focus my remarks and power points. Thanks, Commissioner Sandoval

I am on the phone with Chris Hickling right now, and he said they can definitely accommodate getting the presentation at a later date.

I am puzzled by this late request for power points today for the NEAUC Conference and panel on June 20. It is ok with me if due to your flash drive production timelines I just became aware of today that any power points I prepare will not be included in the

flash drive due to your early due date. I am puzzled by your statement today that you are not accepting any power points on site and must have them today.

I am prepared to go to substantial effort to participate in NEUAC by flying to Kansas City after my California Public Utilities Commission voting meeting, arriving late at night, and speaking at an early morning NEUAC panel. This late announcement that you will not accept Power Points for speaker presentations if not submitted today is not what I expected, nor respectful of the substantial efforts my staff and I have engaged in to participate in the NEUAC conference as I have done the previous two years. I look forward to clarification on this issue. Thanks for confirming my registration status.

OH! Just let me know if she is using a PowerPoint. I absolutely need it by COB today if she wishes to use anything—we're not accepting presentations on-site and will be placing all files onto finalized jump drives tomorrow.

Hi, Ann.

I just heard from David Fox, and it seems like Catherine is all set! Please disregard my request

for payment. ☺

Best!

Megan
