SDG&E Response

Date Submitted: June 3, 2014

Question:

Was your rebuttal testimony on page AB-1 intended to imply that other IOUs operate under mechanisms that could allow them to recover in excess of their actual DR program expenditures?

SDG&E Response to Question 1:

No, my testimony was only intended to clarify SDG&E's cost recovery mechanism in response to DACC/AReM generalized belief regarding the utilities' cost recovery of Commission authorized DR program expenditures.

Person Responsible For The Response: Athena Besa
