Subject: R.12-03-014: SDG&E LTPP Track 4 Procurement Plans

Parties: There are two separate but related processes at this time relating to the SDG&E Procurement Plan. In response to questions from some parties, I will provide some perspective on these processes here.

Process 1 is the formal ALJ process related to the June 12 Petition. Filed Comments are due on June 23.

Process 2 is the informal Energy Division process related to the SDG&E Procurement Plan. Informal Comments are due June 24. To the extent that parties seek further comment time, requests should be directed to Ed Randolph, Energy Division Director, and Lily Chow in the Energy Division.

The Energy Division process may or may not moot the Petition. Parties are free to argue either way, or to provide other comments. After comments are filed, I will prepare a timely Proposed Decision. A Proposed Decision must provide for at least 30 days of public comment. As it is not possible for there to be a Proposed Decision by the 30 day-ahead deadline for the Commission's July 24 meeting, the Proposed Decision will not be available for Commission vote until at least August 14. The exception to this would be if, under Rule 14.6(b), all parties stipulate to a reduction or waiver of the public review period for the Proposed Decision.

There are various possibilities of what may occur in the interaction of the two processes. In no particular order (and not exhaustive of all possibilities):

1. The Petitioners may withdraw the Petition in light of the Energy Division provision for informal comment;.
2. The Proposed Decision may determine the Petition is moot in light of the Energy Division provision for informal comments;
3. The Proposed Decision may determine the Petition is not moot, but deny the Petition;
4. The Proposed Decision may grant the Petition in whole or in part.

Under the first 3 scenarios, no further action will occur as a result of the Petition (unless the Commission votes out an alternate in scenarios 2 or 3 which grants the Petition in whole or part, which is effectively the same as the fourth scenario). Under the fourth scenario, other possibilities arise. For example, the Commission may allow further comment on the SDG&E Procurement Plan.

In the meantime, D.14-03-004 remains in effect. Energy Division is required to review the SDG&E Procurement Plan per Ordering Paragraph 7 of D.14-03-004, and the Director of the Energy Division is to review and, if the Procurement Plan is consistent with D.14-03-004, approve the Procurement Plan in writing. Until then, SDG&E “shall not commence any procurement activities” nor file any procurement-related applications.

In sum, I am aware of the parallel but related processes currently in place.
