RE: A 60- day Extension Request to Publish Southern California Edison Company's (SCE's) 2012-2011 Energy Efficiency (EE) Examination Report

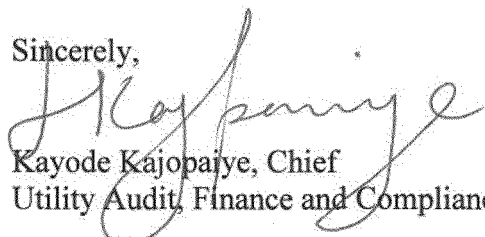

Pursuant to Rule 16.6 of the Commission Rules of Practice and Procedures, the Utility Audit, Finance and Compliance Branch (UAFCB) of the Commission's Division of Water and Audits is requesting a 60-day extension to complete and publish SCE's EE examination report for 2012 and 2011. The UAFCB is in the process of completing and publishing its report of the examination required by Commission Decision (D).13-09-23, Ordering Paragraph (OP) 6 (Attachment 6, page 2), which modifies the schedule on page 40 of D.12-12-032. However, UAFCB is unable to publish the report by June 30, 2014 as expected by the Commission due to extension of time request from SCE to comment on the draft of UAFCB's report. Consequently, the UAFCB requests that the due date be moved from June 30 to August 29, 2014.

SCE has requested an extension of time from UAFCB to review and provide responses and comments to its draft report by July 7, 2014 instead of June 20th due date requested by UAFCB. According to SCE, "the additional time is needed because several of its key subject matter experts for the audit are out of the office on vacation."

The UAFCB supports SCE's request for the extension of time to respond to the draft report. This also provides the UAFCB the additional time it needs to review and prepare rebuttal to SCE's responses and also allows the scheduled time off request from the staff working on the report to be approved. Granting a 60-day extension of time still allows SCE adequate time to file an advice letter for its EE incentive award for 2012 and the Commission to issue a resolution before December 30, 2014.

This request is being served on the official service list in Rulemaking (R.)12-01-005.

Sincerely,

Kayode Kajopaiye, Chief
Utility Audit, Finance and Compliance Branch

cc: Timothy Sullivan, Acting Chief Administrative Law Judge
Rami Kahlon, Director Division of Water and Audits
