Which is why you should go. No major impact.

Brian -- sorry for the delay on this. I spoke to Peevey and he said the tour was well worthwhile, but I have vacation coming up and then the rate case decision, so remind about this after the GRC is finished and we will set something up. It is close to home, which may partially influence my skepticism . . .

Be safe while I'm gone! Mike

Mike - id like to offer you an opportunity to view the Moraga Potrero project. The tour takes about an hour and a half and is close to home. Peevey was out today and can give you color on its value.
