Subject: Visit the PG&E Gas Control Center

Denise

Thanks so much for your time, questions, and offer of support this morning. It is much appreciated.

I had intended to try to get you to the Gas Control Center in San Ramon before this, so today was a good reminder. I'm copying Irma to see if she can help identify a couple times for a potential visit. It typically takes about 45 minutes – 1.5 hours to get to San Ramon (traffic, tunnels) and it would be good to have about 1.5 hours there. So a morning or afternoon commitment would be great. I'd be happy to drive.

I'd like you to be able to meet Mel Christopher, head of the gas control function at PG&E, so that's the only schedule coordination I'd try for.

Thanks again.

Laura
