No safety gear necessary. The Gas Control Center is like a big air traffic control place – lots of people at computers and a giant wall of video data.

I'll send the outlook invite now.

Thank you!

Hi Laura,

Yes, that date and time will work just fine.

What safety gear will Denise need to bring for the event, if any?

Thank you.

How about this?

7/22 10:00 – 11:30 a.m.

Laura

That'll be great.

Thanks.

Irma – the 25<sup>th</sup>, sadly, isn't good for the Gas Control manager who I want to be there for Denise's visit.

I'm going to send you a couple dates in July . . .

Thanks!

Laura

**Importance:** High

Hi Laura,

Will June 25<sup>th</sup> work for you? Denise has this date opened. Please let me know so I can block it.

Thank you.

Denise

Thanks so much for your time, questions, and offer of support this morning. It is much appreciated.

I had intended to try to get you to the Gas Control Center in San Ramon before this, so today was a good reminder. I'm copying Irma to see if she can help identify a couple times for a potential visit. It typically takes about 45 minutes – 1.5 hours to get to San Ramon (traffic, tunnels) and it would be good to have about 1.5 hours there. So a morning or afternoon commitment would be great. I'd be happy to drive.

I'd like you to be able to meet Mel Christopher, head of the gas control function at PG&E, so that's the only schedule coordination I'd try for.

Thanks again.

Laura
