**Subject:** RE: CPUC Data Requests Internal Corrosion

Hi Laura – I am tied up with a different project so might not have paid attention.

Can you please tell me who from PG&E responded on the Internal Corrosion Data Requests so I can search through my email? Thank you.

They should let me know if it will take longer than that. I'm surprised it didn't bounce back – but if it's like here, things sometimes don't get through the spam filter.

Have a good leave!

Laura -- Wow, thank you very much for noticing the error and my apology, It is interesting that the email did not bounce back which would have alerted my error. Anyway I would appreciate to hear back in 10 days and this should work fine as I will be on leave starting this week. Thank you and the team!

Bishu – I just figured out why this looked new to me – your April 1 email went to the wrong address: “lrd” instead of “lrd”

Very glad you resent it today so we can get it in the system.

Should be 10 days.

Thanks

Laura

Hi Laura – I was wondering whether PG&E has already send me the response to this data request? I do not find it in my email. I wonder if it was sent back under a different name? Can you please confirm? Thank you.
