Subject: Re: Accepted: Quarterly Meeting w/PG&E Electric Operations

Denise,

The purpose of the meeting is to provide on a periodic basis a forum for PG&E and SED to discuss electric operations issues, including system-wide initiatives and programs and emerging industry issues. This meeting will be the first session and the regular attendees from PG&E's Electric Ops will be Pat Hogan, VP, Asset Management; Eric Back, Director of Compliance and Risk Management and Jay Singh, Manager, Distribution Compliance. We may also include others from the department depending on the issues on the agenda.

I will work with Charlotte on the agenda when she returns from vacation and we will send to you in advance of the meeting. Charlotte asked that I send you the invite directly given she is out of the office.

I hope this helps. Please let me know if you need additional information.

Best regards,

Meredith Allen

PG&E Company

Senior Director, Regulatory Relations

77 Beale Street

San Francisco, CA, 94105
