Subject: RE: CPUC Physical Security Workshop

Substation Workshop Participants:

I want to thank everyone again for participating.

If you would like to watch all or part of it the webcast is here-

<http://www.californiaadmin.com/cpuc.shtml>

Although we didn't draw a huge audience both days were very interesting and filled with a great deal of information. In fact, I was surprised at how much information was passed on the first day. It was harder to follow along while trying to conduct the meeting, but when I watched the webcast I found it pretty fascinating.

I'll be in touch if we require further assistance or input.

Thanks again.

Ben Brinkman, P.E.
