Subject: RE: R.12-06-013 Question to Parties Regarding Need for Technical Workshop Evaluating TOU Programs

ALJ Halligan,

TASC supports holding a workshop on existing optional and pilot TOU programs as the discussion would be helpful for upcoming testimony.

The topics outlined in your email to the list are an excellent foundation for the discussion. We'd also suggest adding in time to discuss: the impact of TOU rates on DG adoption and what type of TOU elements drive more customer action (e.g. on-peak/off-peak differentials, impact of combining with Critical Peak pricing, whether it's default, etc.). It would also be helpful to understand results (and methodologies) of cost-effectiveness evaluations of the programs.

Regarding dates/times: The last week of July or the first week of August work well for TASC (except for July 30 and August 1).

Dear Parties to R.12-06-013,

The Energy Division requests party feed-back on whether a 1 day technical workshop on existing optional and pilot TOU programs would be useful. This workshop would consist of a series of technical expert presentations related to the design and implementation of specific optional/pilot TOU programs including programs in the IOU service territories, SMUD, APS, and any other specifically identified existing programs. Topics could include:

- 1) Load reduction measured in the optional/pilot programs.
- 2) Lessons learned, including enrollment rates, from marketing and education efforts for these optional/pilot TOU programs.

3) Variables that were considered in the design of these optional/pilot TOU programs.

Please provide feedback to the Service List by answering the following questions by June 27, 2014:

- 1) Would a technical workshop on existing optional/pilot TOU rates be helpful to parties in the R.12-06-013 proceeding?
- 2) If yes, are there specific technical topics or questions you believe the workshop should address?
- 3) If yes, please provide suggested date/timing for the workshop.

Thank you.
