Subject: **Come Join the CPUC's Rainbow Regulators at the Annual Gay Pride Parade - June 29, 2014!!!**

Joy Morgenstern – a member of the CPUC’s Rainbow Regulators, invites all CPUC staff, and their families and friends, to join the Rainbow Regulators at the San Francisco Pride Parade on Sunday, June 29. The Rainbow Regulators is the CPUC’s employee organization for Gay, Lesbian, Bisexual and Transgender employees and Straight supporters.

Before you decide whether or not to join us, consider this:

- The San Francisco Pride Parade is said to be the largest parade in the world!*

- Whether you are gay or straight, tall or short, live in the city or the 'burbs, you really should go to Pride at least once in your life. Admit it, it's probably on your bucket list.

- The folks who run the parade, San Francisco Lesbian Gay Bisexual Transgender Pride Celebration Committee, have a really great mission statement: *To educate the world, commemorate our heritage, celebrate our culture, and liberate our people.*

- It's great for the whole family. There will be lots of kids there to keep your kids entertained, and a great family garden after the parade at the Civic Center playground.

- It's a wonderful opportunity to spend some time with some of the coolest people at the CPUC, and wear whatever you like including a funny hat and those sparkly orange pants that you'd never wear on a workday.

- It's a great chance to celebrate the fact that you work in the best city on the planet, where you can be anything you want to be, and no matter how that weird that is, no one will mind.

Please let us know if you want to join our contingent. Contact joy.morgenstern@cpuc.ca.gov or emilio.victorio-sanchez@cpuc.ca.gov if you think you want to attend, or for more info. (We are still working on figuring out exactly when and where we're meeting. It will be sometime between 10 and 11:30 a.m., somewhere in the financial district; we'll let you know.)

*OK, most of you are analysts and you want to know what kind of data that claim is based on. I admit it, I don't know, I heard it somewhere. I'm only reporting that it's "said to be" the largest parade, so it's technically true – Joy Morgenstern.
