June 25th looks to be the best date for everyone.

I'm expecting Redacted to recommend site(s) to visit, as opposed to PG&E. Commission meeting week is OK for me at least. August 19-21 I'll be out of the country.

Paul (and Anna-Marie!)

I'm following up on the idea of getting you, Brian Turner and Denise out in the field to see some interesting PG&E gas work.

I think the idea of doing something June 24-26 may already have been nixed (Commission meeting week), but I want to confirm that's the case since there is some cool work going on in Sacramento on those days with our Picarro/Super Crew gas leak pilot program. You'd have to go to Sacramento, of course, and it would take at least a couple hours on the ground.

Assuming that does NOT work, can you look at availability on August 19-21? That's when the Hall team returns to California.

Thanks!

Laura
