Subject: RE: A.13-10-017 PG&E's Response to TURN Data Request 001 Q05d

I think the first step is for them to see the request. I hope there are files they can simply forward. If not, ask them to email me with a phone number and I'll call: either as soon as my computer is awake, typically around 8:30, or between 10 and noon.

Thanks Shilpa,

Tom

Tom,

I did some checking, but unfortunately, Redacted are both out of the office today. Can we set up time with you and one or both of them on Monday so we can close the loop?

Thanks.

Shilpa

Subject: FW: A.13-10-017 PG&E's Response to TURN Data Request 001 Q05d

Shilpa,

I got an out of office from ┌Redacted┐ which referred me to you. I'm hoping to get the requested information today so I can work on it over the weekend in support of our meeting on Tuesday.

Thanks,

Tom

┌Redacted┐

The excel file attached to the response below includes various lengths in feet as static numbers. The same is true of the file provided in response to TURN DR1 Q5c sent on Monday. I need the original versions of these files that show the logic behind how these lengths were derived. If there are no original files that can be sent and that will run on ORA or TURN computers, please let me know and I can work with George to find a solution.

Tom L. – If there are other updated revisions to TURN DRs issued recently that I've missed, please let us know.

Thanks,

Tom R.

Dear Tom Long:

Attached is PG&E's supplemental response to PSEP Update Data Request TURN-PG&E-001, Question 5d. (PSEP-Update_DR_TURN_001-Q05).

Please let me know if you have any trouble opening the files. If you have any questions regarding this response, please contact Redacted

Thank you,

Redacted

Subject: A13-10-017, TURN DR TURN-PG&E-001

Redacted et al,

Attached is TURN's first set of data requests in the above-captioned matter. We request that PG&E provide responses as they become available, with a requested due date of December 23, 2013. (We can talk about an extension to accommodate holiday schedules.) If you believe it would be more efficient to have a telephone conversation regarding any of these requests before responding, we are open to that.

Tom
