Subject: UPDATE: Field visit followup

I am double checking the Stewardship Council "Field Trip" I told you about...and hoping there is not a board meeting attached.

If so, he will need to go all day to the board meeting.(which is the day before)

My apologies, I really thought it was just a field trip, on Commission Day, which he would NOT attend.

Please hold the time – 10:00 am – 1:30 pm in Sacramento with Hall & Associates.

And then [Reda] will send an Outlook invitation when we get more details.

Thank you, thank you!

I'm expecting [Redacted] to recommend site(s) to visit, as opposed to PG&E. Commission meeting week is OK for me at least. August 19-21 I'll be out of the country.

Paul (and Anna-Marie!)

I'm following up on the idea of getting you, Brian Turner and Denise out in the field to see some interesting PG&E gas work.

I think the idea of doing something June 24-26 may already have been nixed (Commission meeting week), but I want to confirm that's the case since there is some cool work going on in

Sacramento on those days with our Picarro/Super Crew gas leak pilot program. You'd have to go to Sacramento, of course, and it would take at least a couple hours on the ground.

Assuming that does NOT work, can you look at availability on August 19-21? That's when the Hall team returns to California.

Thanks!

Laura
