

Understanding Your Energy Choice

As a part of our mutual commitment to support your energy choice, MCE and PG&E have partnered to create a comparison of our typical electric rates, average monthly charges and generation portfolio contents. Below you will find a representative comparison of our rates, average monthly bills and power generation portfolio content based on customer class. To find your specific electric rate, please scroll down to your rate plan to view the rate and bill comparisons.

PG&E's Rate and Bill Comparison include the following:

Definitions

Generation Rate is the cost of creating electricity to power your home or business. The generation rate varies based on your energy provider. ~~PG&E generation rates do not include temporarily deferred costs associated with greenhouse gas (GHG) compliance under the California Cap and Trade Program. These costs will be added to PG&E generation rates in 2014. MCE generation rates currently include these costs and MCE customers will not pay deferred costs in 2014.~~

PG&E Delivery Rate is a charge assessed by PG&E to deliver electricity to your home or business. The PG&E delivery rate depends on your electricity usage, but is charged equally to both MCE and PG&E customers. ~~This rate does not reflect reductions associated with the sale of GHG allowances under California's Cap and Trade Program, which will be included in 2014.~~

PG&E PCIA/FF represents the Power Charge Indifference Adjustment (PCIA) and the Franchise Fee surcharge (FF). The PCIA is a charge to cover PG&E's generation costs acquired prior to a customer's switch to a third-party electric generation provider. PG&E acts as a collection agent for the Franchise Fee surcharge, which is levied by cities and counties for all customers.

Where Do I Find My Electric Rate Schedule?

Need some help finding your electric rate? Go to the "Electric Delivery Charges/Electric Account Detail" section of your energy statement — typically on page 3. Here you'll find your electric rate in the upper left.

Important Messages
Summer Reminder Unusually high temperatures, like those experienced in early July, can lead to greater energy use and higher than average summer bills. Our new energy statement provides helpful charts to help you understand your charges. For more detailed information, including how hot weather may have affected your usage, log in to - or create - your account at pge.com/myenergy.
