Subject: RE: PG&E's Response to Facility-level emissions for AL 4331-E

Jason,

I am the director responsible for case management of GHG-related issues at the CPUC. Redacted and Redacted (ERRA) all work with me on proceedings with GHG issues. Erik Jacobson is my counterpart on these same proceedings on the Advocacy side. Redacted works with Erik. Meredith Allen is in an Advocacy role but no longer specifically covers GHG issues.

I realize that this is confusing- in order to make things easier for you, why don't you just send all questions / data requests to me and Erik? That way we can coordinate internally, and you won't be responsible for finding the right person. Hopefully that will help on your end.

Thanks, and have a great weekend-

Sujata

Hi [Redac]

Would you mind giving us a refresher about which case managers and directors are working on specific issues and proceedings? At various times Meredith Allen, Sujata and Erik Jacobson have all worked on various GHG-related issues, and I'm no longer sure which reg affairs case managers and directors are working together on certain proceedings. If you could give us a few bullet points on the current org chart and responsibilities that'll help us keep our requests focused.

Many thanks,

Jason Houck

Great, thank you [Redacted]. Will do for future requests.

Best,

**Amy Kochanowsky**

Amy,

Please find the attached spreadsheet in response to your data request. For future for requests related to the Bundled Procurement Plan and GHG limits/procurement strategy, please reach out to [Redacted] who is also cc'ed in this email. Kathleen works on the GHG revenue return proceeding, so the topics are inter-related but we have different coverage on these issues at PG&E. Thanks for understanding and apologies if this caused confusion.

Thanks,

[Redacted]
