Additional Notes

Participating on behalf of ORA

Noted in email he thought it was on 6/5/14

Not attending, would like a summary

Indicated that Deana Ng, Tanya Peacock and Greg Healy would also be attending on behalf of SoCalGas and SDG&E

Also indicated that Maria Zannes (their consultant) may wish to join - would like to discuss the merits of using some of the GHG C&T revenues to help defray the costs of injecting Biomethane into California's common carrier pipelines to help lower the carbon intensity of natural gas

Karen Terranova will coordinate with Evelyn

Karen Terranova will coordinate with John
