Thanks Laura,
I'm en route to yet another reptile meeting but I'll Cc myself and follow up tomorrow with him.
I think he left at 430 today.
And have a good week/Holiday too!

Hi Anna-Marie –

I haven't heard back from Brian on this and am realizing he could be out for the week.

I'm not in a rush to get a response, but I don't want it to fall through the cracks either.

Could you just make sure he is aware it came through and see if he's interested at all?

If so, you and I can work on scheduling, one of our most favorite things!

Thanks

And Happy 4th!

Laura

Subject: Yet another meeting

Hi Brian – hope your week is winding down and not up.

I enjoyed your presentation yesterday at the Commission meeting, and am glad you are there to help navigate those federal policy changes, among other things.

After Sumeet and Jim Howe met with you yesterday we realized that you hadn't yet met Jesus Soto, our Sr. VP of Engineering and Construction. He would really like an opportunity to meet with you to talk more about gas operations. Jesus came from El Paso Natural Gas and is relatively new to PG&E so he has a strong outside perspective.

If you were willing and your schedule allowed, it might be good to get together sometime at Bishop Ranch. I know you have been through the Gas Control Center, but there are always new and interesting things going on there. If that is inconvenient, I'm sure we can find a time when Jesus is in the city and you could get together.

Could I work with Anna-Marie to set something up in July or August?

Thanks Brian.

Laura
