Subject: Crossbore issue

Thanks Liza. We will get back to you tomorrow with basic information in response to your points below and will look forward to working with your designated investigator on this issue.

Laura

Laura,

As I mentioned to you, we have received a letter from Jackie Speier regarding cross bore safety program conducted by PG&E in 2012 & 2013. Please let me know:

- o If PG&E is aware of any issues in this program, identified through internal QA/QC or otherwise
- o The lead on this program
- o Any additional information, including duration of the program, goals, etc.

I am not able to share the letter with PG&E, since it contains some potentially confidential information. However, here is an extract to give you more context about the program that this is referring to:

SED will be performing a review of PG&E's cross bore program and an investigator will be reaching out shortly. Any information you can provide ahead of time will be much appreciated.

Kind Regards,

Liza

Elizaveta Malashenko
