Hi,

Just to clarify, I'll be in the Monday meeting that is set up with Gov Rel & OGA (Lynn Sadler) to discuss several issues. I was looking to have a separate conversation with people working directly on the data security concerns. However if we can accomplish something in the OGA meeting, that's fine also.

Thanks,

Liza

Looks like at least some of our folks are available on Monday at 4:00. Does that work for you all?

Billy

Importance: High

Hello,

I've been working on SB 699 (physical and cyber security bill) and I understand that the utilities have expressed concerns sharing sensitive information with the CPUC. Attached is the bill and from what I understand the latest proposed amendments from your respective utilities.

I'd like to get on a call and see if we can come up with a single proposal that all of us are comfortable with. I understand the concern, but think we should try to take another round regarding possible solutions.

Thanks,

Liza

PS: This is rather time sensitive, so we should do this in the next few days, if possible.
