Ken and Maria,

7/31 at 1:30 works for Charlotte's team. I will send an invite later today.

Thanks,  
Meredith

Hi Ken,

I should have mentioned that I checked in with Maria and these times work for her.

Hope you have a great weekend!

Thanks,  
Meredith

Subject: PG&E's Emergency Preparedness & Response

Charlotte and Ken,

We would like to meet with you and your teams to discuss PG&E's Emergency Management Advancement Program. A description of the program is below. Would you please let me know whether you would be interested in meeting to discuss and if so, whether July 31 at 1:30 or August 7 at 9:30 would work? If not, I can send other potential dates.

Thanks,  
Meredith

In 2013, PG&E implemented an initiative to strengthen its capabilities across the Company to respond to catastrophic events. PG&E created a company-wide emergency preparedness and response department. PG&E also adopted the Emergency Management Advancement Program to bring its response processes to industry leading standards over a 2 year time period.

PG&E's approach to a catastrophic event is predicated on our ability to scale and our ability to do so quickly. The purpose of the briefing would be to discuss the improvements in these 2 key areas that PG&E is making through EMAP, such as new damage forecasting capabilities, scaling restoration requirements, leadership support and logistics, and collapsing lead times for emergency response, restoring community priorities and communicating internally and externally. PG&E is also testing and exercising EMAPs principles and concepts through more frequent and enhanced drills.
