Subject: Follow-up document from Wednesday's CES-21 session

Hi all,

Thank you to everyone who attended and made our consensus session on Wednesday so productive. Special appreciation to those who took planes/trains/automobiles to be here.

My understanding was that I'd send the utilities a data request specifically for the action items under objective 3. But in organizing my thoughts, it seemed most direct to just put some of the main discussion points and action items for all the objectives into a document. See attached. The response timeframe for the action items was agreed upon at the meeting- within a week or so from the 23<sup>rd</sup>... If any of them can't be provided by 8/4 please let me know.

If anyone has changes or suggestions, provide those as well. My intent was to capture the common understanding, so there hopefully aren't any surprises.

Cheers,

Maria
