Belinda

We are working on the additions and should have something to you soon. However I want to point out one correction on the 1/1/15 increases. First, the GT+S schedule calls for a decision by the end of the first quarter, 2015. Being this as the most optimistic date, chances are that a decision will likely come out in the second quarter. However, the existing GT+S settlement has a clause that will have a 2% increase effective 1/1/15 in the event that there is no final decision in effect. I propose that we use the 2% increase since that seems to be the most realistic outcome. We could update the information later as events take place.

Sorry John, one more followup.

Could you also provide PG&E's proposed revenue requirement for 2015 that would include the 2014 proposed PD GRC increases and PG&E's requested increase from the GT&S proposal?

Thanks! -Belinda
