Subject: Summer reliability

Hi [Red],

Good to see you again at happy hour yesterday!! And please send my greetings to Laura – it's been a while! I was just curious, as we get into the middle of the summer, who would be a good contact person in the event of any significant reliability events (major fires, unusual heat wave, etc). With [Redacted] out, should I be contacting you? I just want to make sure we have a clear contact point in case we need to convene a conference call to discuss urgent reliability issues during these summer months.

Thanks much,
Joanna
