RE: Pacific Gas and Electric Company's Comments to Draft Resolution E-4628, Provide Service under PG&E's Electric Rate Schedule A-1 to the San Joaquin Regional Transit District's Electric Bus Charging Load, Pursuant to General Order 96-B, Section 8.2.3

Dear Energy Division Tariff Unit:

Pacific Gas and Electric Company (PG&E) respectfully submits its comments on Draft Resolution E-4674 (Resolution), which approves PG&E's proposal to provide service under Electric Rate Schedule A-1 to the San Joaquin Regional Transit District (SJRTD) for a three-year period, ending September 30, 2016.

After reviewing the draft resolution and conferring with Energy Division staff, PG&E requests that the following two minor technical corrections or additions be made before the final resolution is issued. First, the third item listed under Findings and Conclusions should be modified to read as follows, with text to be inserted indicated with italics:

3. PG&E's proposed tariff treatment of electric buses is in compliance with CPUC tariff rules. *Specifically, this Commission's General Order 96-B (Section 8.2.3) allows limited instances of utility service to Government Entities under terms that differ from standard tariffs. Under this provision, each such exception is subject to Commission review and approval.*

Second, PG&E requests that the text of Ordering Paragraph 1 be modified so as to allow PG&E to formally inform the Commission of its compliance with the resolution, without calling for the preparation of a new advice letter. The modified ordering paragraph would read as follows, with deletions marked as strike-throughs, and insertions marked with italics:

1. Within 15 days of the effective date of this Resolution, *PG&E shall notify the Energy Division by letter that the San Joaquin Regional Transit District (SJRTD) has been receiving service* ~~file a Tier 1 Advice Letter to provide service~~ under the time-of-use (TOU) rate option (Option B) of Pacific Gas and Electric Company's

(PG&Es) small general service electric tariff, Schedule A-1, ~~for a period of three years to the San Joaquin Regional Transit District (SJRTD) since September 30, 2013~~ for the purpose of meeting its new electric bus charging load requirements, *and that SJRTD has been notified that their eligibility for service under this tariff exception.* ~~This tariff will be effective as of September 30, 2013 and will expire September 30, 2016.~~

Sincerely,

Senior Director, Regulatory Relations
