Subject: RE: Outdated and Unnecessary Report

Marzia,

Will do.

Thanks,
Meredith

Hello,

We are working internally to come up with an initial list of General Orders, PU Code sections, and utility reports that may be ripe for revision/update/elimination due to time and technological advancement and general course of business operations. I would like to ask you specifically of some utility reports that you think are ripe for elimination. Of course, this doesn't mean that we agree with you. For now, we are just looking to see if we can create a preliminary list.

I have heard from many of you – actually, I have heard many whines/complaints that we require reports that we don't even read or do anything with... well, this is your chance to actually identify some of those reports.

Please send me a list of such reports by next Wednesday, August 13th.

Please forward this to other telecommunication companies, water utilities, or energy utilities that I have missed in this email.

Thanks,

Marzia Zafar - Director, Policy & Planning Division
