## **ALLIANCE OF AUTOMOBILE MANUFACTURERS MOTION FOR PARTY STATUS**

In accordance with Rules 1.4 and 11.1 of the California Public Utilities Commission (“Commission”) Rules of Practice and Procedure, the Alliance of Automobile Manufacturers (hereafter, “Alliance”) respectfully requests party status in the Order Instituting Rulemaking to Consider Alternative-Fueled Vehicle Programs, Tariffs, and Policies (R.13-11-007).

### **I. Request for Party Status**

The Alliance has an interest in matters related to the Rulemaking (R.13-11-007) opened by the Commission to address issues relating to the expanding use of alternative-fueled vehicles (AFV) in California. The Alliance is a trade association of twelve (12) car and light truck manufacturers (BMW Group, Chrysler Group LLC, Ford Motor Company, General Motors, Jaguar Land Rover, Mazda, Mercedes-Benz USA, Mitsubishi Motors, Porsche, Toyota, Volkswagen, and Volvo) offering new vehicles in California. Our member companies are strongly committed to market development of plug-in electric vehicles (PEVs), and collectively offer eight (8) battery electric vehicles (operate solely on battery power) and seven (7) plug-in hybrid electric vehicles (PHEVs). The Alliance has not participated in previous Commission proceedings.

The Alliance represents companies that are directly involved in sales and marketing of products and services which directly affect, and are impacted by, this proceeding. The successful growth of the PEV market is important to both the automotive and electrical utility industries as we work closely together to proactively seek sustainable energy and environmental solutions for the state of California. The Alliance believes it meets the requirements to become a party in this proceeding.

## II. Notice

Service of notices, orders, and other correspondence in this proceeding should be directed to the address below:
