

# Distribution Group Study Process

---

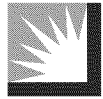

August 26, 2014

- Overview
- Applying for DGSP
- DGSP Interconnection Process
- Applicability and Utility Contacts
- Questions

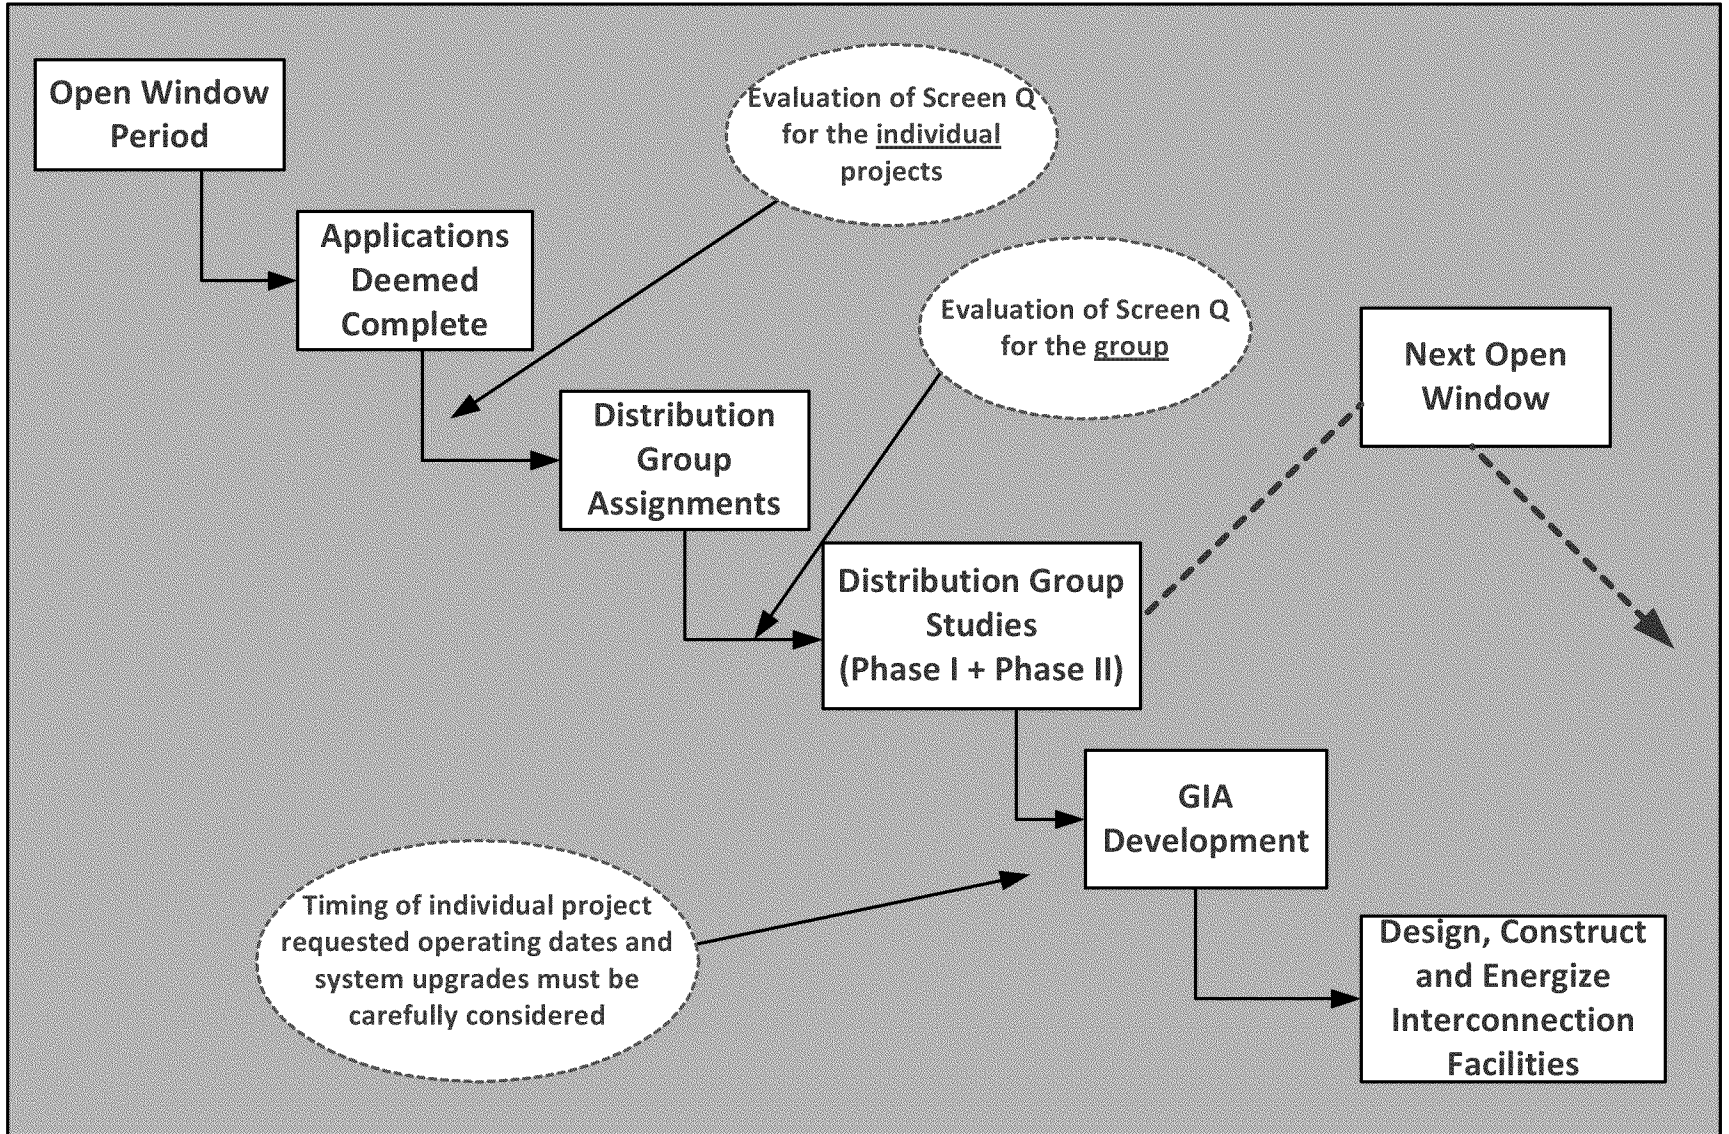

A Sempra Energy utility

SOUTHERN CALIFORNIA  
EDISON

An EDISON INTERNATIONAL Company

# Process Overview

- Two windows available each year<sup>1</sup>
  - March
  - September
- Apply using current application forms for Exporting Generating Facilities
  - Applications may be submitted online (utility dependent)
- Will be required to submit all currently required documentation, fees, and deposits during the Application process as detailed by each utility
  - Interconnection Request Form
  - Site Control
  - Single Line Diagram (SLD)
  - Applicable Fees and Deposits
  - Site Plan

	Application Fee	Phase I Deposit	Phase II Deposit
5 MW or Less	\$800	\$10,000	\$15,000
Greater than 5 MW	\$800	\$50,000 + \$1,000 per MW	

<sup>1</sup>The IOUs are reviewing existing applications and on a project by project basis will contact customers who fail the screens that make them eligible for DGSP.

	DGSP Tasks <sup>1</sup>	App.	Screens Q & R				
		Mar	Apr	May	Jun	Jul	
		Sep	Oct	Nov	Dec	Jan	
<b>Application</b>	Application Window	\$					
<b>DGSP Screens Q &amp; R<sup>2</sup></b>	Conduct Screens Q and R						
	Schedule Scoping Meeting						
	Scoping Meeting Date						
	Tender Study Agreement (DSA)						
	DSA Executed by Customer <sup>3</sup>						

**Notes:**

- 1) These timelines represent tariff allowances. Timelines may be shorter depending on circumstances (group size, timely submittal of materials, etc.)
- 2) Interconnection Requests that fail Screen Q will have to apply to the WDAT Cluster Study Process
- 3) DSA timeline for Customer execution could be cut short due to the start of the DGSP Phase I Study
