Subject: Yurok Update - Need to Reschedule

Catherine – we are going to need to reschedule the meeting we have tomorrow on your calendar regarding the Yurok update. Quite frankly, the material we have prepared and our inability to get the right people to attend are the reason for the need to reschedule the meeting. I don't want to waste your time by having a meeting that doesn't answer the questions you are looking to have answered. I take full accountability for the rescheduling and will try to get back on your calendar in a few weeks. My apologies again.
